

Motions filed at the Town Hall on January 18, 2018 at 11am

- 1)** That the city council assumes, as it does in the village of Prasdip, the water network of Urbanization
- with the possible electronic or electromechanical repairs of the machines.
 - verification of cleanliness, salubrity and control of existing water deposits inside the Urbanization.
 - as well as the Sabate and The Sorts pumps, from the starting points and driving to the depot of the Urbanization.
 - That the price of the consumption and the maintenance of the water network in all the aspects are equal throughout the municipality, like the price per liter, the maintenance of the meters, lighting of the wells etc.
 - take into account any possible damage and repairs throughout the water network etc. inside the urbanization.
- All of us are owners of the same municipality, so we ask for the same basic rights.

- 2)** That the city council takes care of the urban wastewater treatment plant, its proper functioning, the public health, the control bodies and this without additional costs.

During the project of its own sewage treatment plant, connect the septic tanks of the barranco and the cost is included inside the municipal subsidies.

- 3)** That the municipal council urgently asks the corresponding companies of electrical supply the maintenance and the cleanliness of the lines of Planas.

The danger is constant with the cables on the ground, in the trees etc. that would avoid frequent power cuts.

- 4)** That the Municipal Council which gave for many years building permits takes a definitive action, on all the abandoned plots, neglected, without security, risks of fires and possible personal damages.

- 5)** That the municipal council, take urgent responsibility for spraying and removing the processionaries who invade our environment.

- 6)** That the municipal council take into account the collection and maintenance of the existing waste disposal center in Planas

- 7)** That the municipal council take care of the maintenance of green spaces, common areas of the urbanization, as well as watering control, cleanliness as it does in the village, also the replanting of trees, plants etc. ...

- 8)** That the municipal council solicit and urgently take out liability insurance for Planas since it no longer exists and we could have serious problems at any time.

That all these motions appear on the agenda of the next "pleno", that they are treated step by step, pass by the vote, be recorded and be included directly in the budget of 2018.
